About

Independent R&B and alt-pop artist out of LA. I write and top-line my own records and produce with a small circle of collaborators. **Three of my last four releases are sync-ready on Funün** — looking for placements in film, TV and brand campaigns, plus co-writes with producers in the moody-electronic and cinematic-pop space.

The low-end on the title track is so clean. Mix translates great on the car system 🔥

That topline on "Paper" is unreal. Would love to send you a beat pack for the next project.
